### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barner on September 29, 2004.

Mr. Barner also authorizes to amend the claim 1 (lines 8-12), claim 5 (lines 13-17), claim 6 (lines 15-19) and claim 27 (lines 8-12) as following:

a light shield layer formed on said another surface of the lens substrate reverse to said plurality of microlenses, and covering ~~other~~ an area other than said plurality of light exit areas; and  
an anti-reflective layer formed on a surface of said light shield layer other than a surface formed on said light shield layer and covering the ~~other~~ area other than said plurality of light exit areas

Mr. Barner authorizes to amend the claim 21 (lines 15-18) as following:

"a light shield layer formed on said another surface of said lens substrate reverse to said plurality of microlenses so as to cover ~~other~~ an area other than said plurality of light entrance areas; and

a diffuse reflecting layer formed on a surface of said light shield layer at a light entrance side ~~than~~ of said light shield layer so as to cover ~~other~~ the area other than said plurality of light entrance areas,"

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of Species A and Group I (claims 1-2, 4-5, 19-21 and 27-29) in the reply filed on 20 September 2004 is acknowledged.

Claims 6-18, 22-26 and 30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 20 September 2004. Claim 3 is canceled.

Therefore, claims 1-2, 4-5, 19-21 and 27-29 are pending in the elected species.

### ***Allowable Subject Matter***

Claims 1-2, 4-5, 19-21 and 27-29 are allowed.

### ***Reasons for Allowance***

Claims 1, 5 and 27 are allowed since there is no prior art teaches a light diffusing plate comprising

- a light shield layer formed on said another surface of the lens substrate reverse to said plurality of microlenses, and covering an area other than said plurality of light exit areas; and

- an anti-reflective layer formed on a surface of said light shield layer other than a surface formed on said light shield layer and covering the area other than said plurality of light exit areas.

Claims 2, 4, 19-21 and 28-29 are allowed since they depend on allowed claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
